

June 2019

Public Consultation
Proposed changes to on-street parking
Harrow Road and Monks Park

This document outlines our proposals for Pay & Display / Pay by Phone on Harrow Road and Monks Park. Please read through the information in this document and then complete and return the enclosed questionnaire - **postage is free**. Alternatively this document is also available for completion online at www.brent.gov.uk/consultation. Only responses from within the consultation area will be considered. The closing date for the return of the questionnaire is: **Friday 26 July 2019**.

Why are we proposing these changes?

The Council has received requests from local businesses for the provision of short term parking on Harrow Road and Monks Park. At a recently held meeting, businesses raised an issue with the non-availability of short-term parking spaces due to all-day free parking (except on Wembley Stadium Event days), which causes loss of passing trade.

By introducing a Pay and Display / Pay by Phone scheme to the existing free parking bays in Harrow Road and Monks Park, we would be able to increase the supply of short term parking, resulting in a regular turnover of spaces for residents, visitors and shoppers.

What are the proposed changes?

The current restrictions only apply on Wembley event days when there is a two hours' restriction with no return within two hours. It is proposed to introduce a short term Pay & Display / Pay by Phone parking scheme on Harrow Road and on a section of Monks Park as per the attached drawing. If this scheme is approved, pay and display machines will be installed in both locations. Details of the scheme are provided in the plan attached.

The proposed parking scheme will operate Monday to Friday between 8.30am and 6.30pm with a maximum stay of two hours with no return within two hours. Parking will be free on weekends and on bank holidays, however the proposed scheme will apply on event days from 8am to midnight.

A disabled parking bay for Blue Badge holders will be installed on Harrow Road.

Advantages:

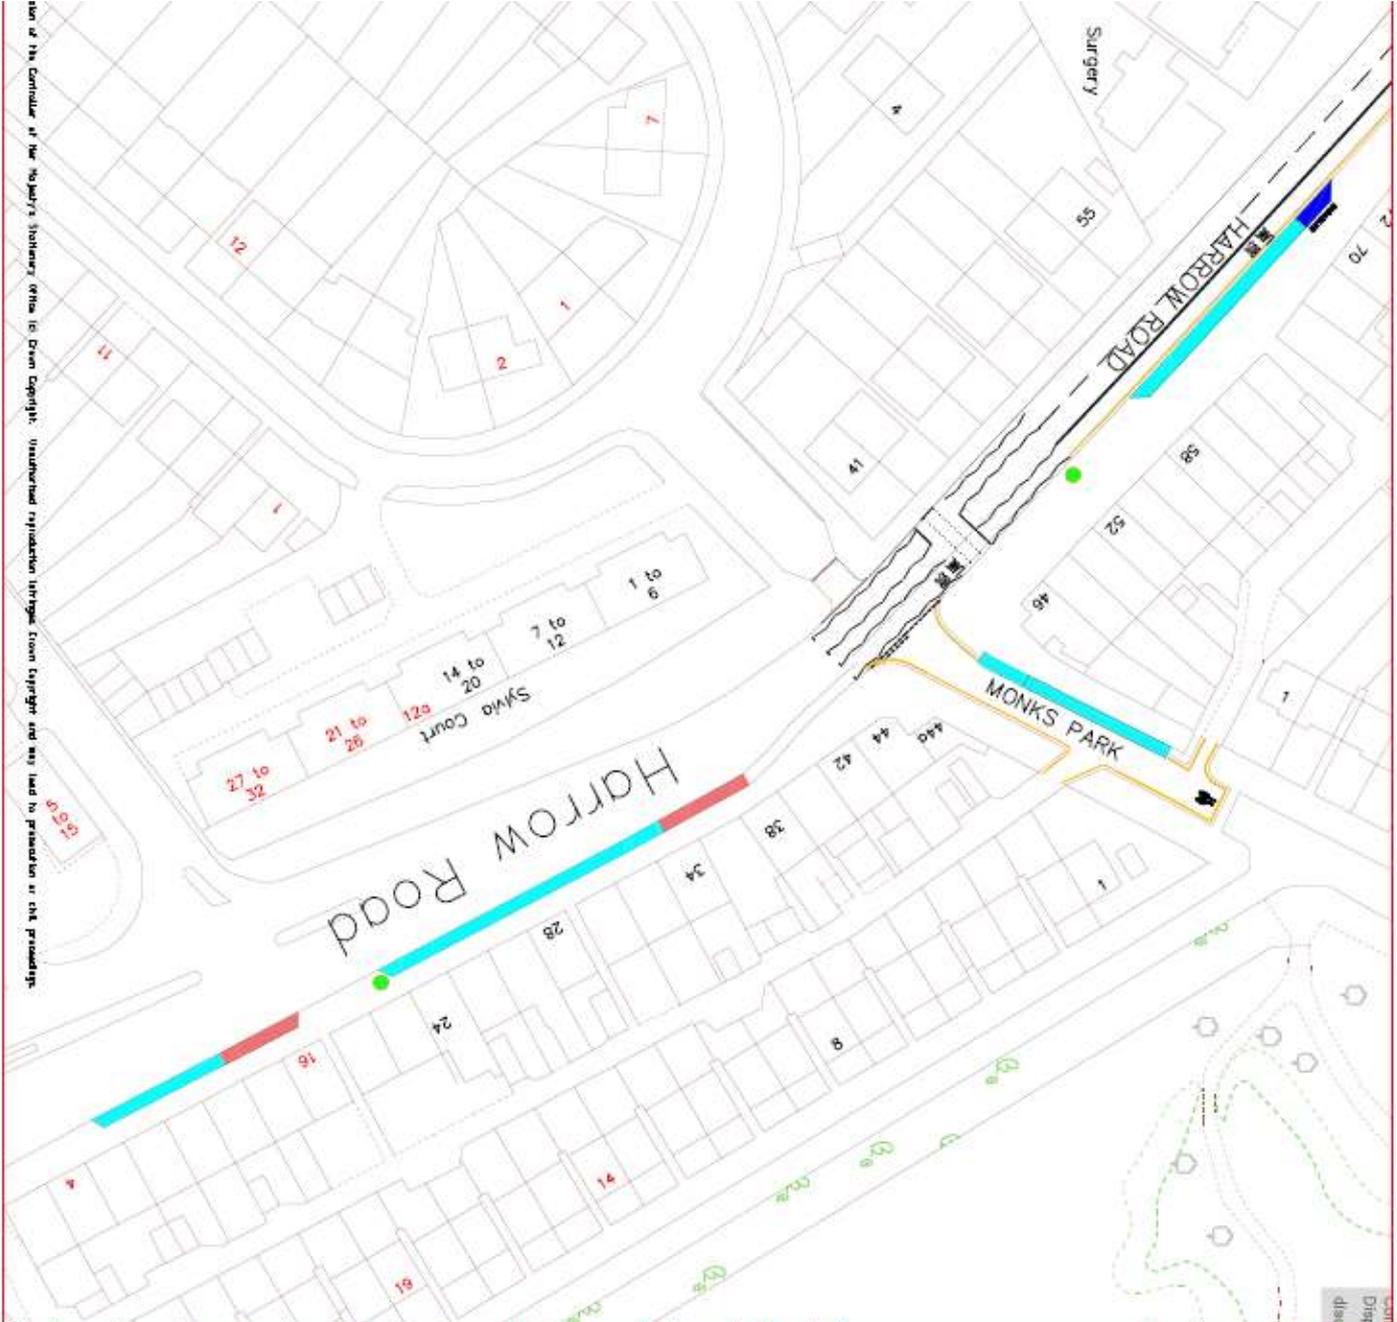

- Increases short stay parking spaces for local residents, businesses and shoppers.
- Prevents all day commuter parking.
- Contributes towards better air quality by reducing the time taken for shoppers to look for parking spaces.

We are consulting directly affected residents and businesses within the area, please complete and return the questionnaire. **An exhibition has been arranged at the Islamic Cultural Centre, 72 Harrow Road on Tuesday 9 July 2019 – 5pm to 8pm.** This will provide residents and businesses an opportunity to discuss the scheme with our engineers. Your views are important to us and we thank you for your participation.

Yours sincerely
Sandor Fazekas
Project Development Service Manager

Please see the back of this document for further details on how to respond to this consultation.
